La Jolla, California 92087

Dear Mr. Waitt:

All of us at the W.E.B. DuBois Learning Center sincerely appreciate your prompt response to our request for assistance and your generous contribution of \$5,000 to the Telecommunications Hub project.

Your contribution made it possible to provide a stipend to each of the 22 youth that worked so hard this summer in the wiring project. Due to their efforts and those of the three adult instructors that trained and worked with the youth, wiring for Phase I of the project has been completed.

Our project is congruent with your goal of connecting people to the Internet so that every person can be armed with the information and skills needed to succeed in our wired society. For this reason, we trust that you would like to be kept informed of our progress. Attached is our most recently prepared Telecommunications Hub Status Report and a report of the stipends given to each student based on the hours worked. We will include you in the distribution of project Status Reports on an ongoing basis.

We would like for you to see the Learning Center and the sites that have been completed in Phase I of the project. You may contact Harrison May by telephone or e-mail when you are able to schedule a visit:

Telephone: (816) 363-1297 or 545-0397 E-mail: hmay@duboisl.org.

Again, thank you for your generosity, your interest, and your support.

Sincerely,

William B. Grace
Executive Director
